2. Fidelity Income Strategy Evaluator[SM] is an educational tool.

3. Fidelity Portfolio Advisory Service® is a service of Strategic Advisers, Inc., a registered investment adviser and a Fidelity Investments company. Fidelity® Personalized Portfolios may be offered through the following Fidelity Investments companies: Strategic Advisers, Inc., Fidelity Personal Trust Company, FSB ("FPT"), a federal savings bank, or Fidelity Management Trust Company ("FMTC"). Non-deposit investment products and trust services offered through FPT and FMTC and their affiliates are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency, are not obligations of any bank, and are subject to risk, including possible loss of principal. **These services provide discretionary money management for a fee.**

4. Fidelity Freedom Funds are designed for investors expecting to retire around the year indicated in each fund's name. Except for the Freedom Income Fund, the funds' asset allocation strategy becomes increasingly conservative as it approaches the target rate and beyond. Ultimately, they are expected to merge with the Freedom Income Fund. The investment risks of each Fidelity Freedom Fund change over time as the funds' asset allocations change. The funds are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap, commodity-linked and foreign securities. Principal invested is not guaranteed at any time, including at or after the target dates.

5. Assumes the adoption of the optional Smart Payment Program[SM] in conjunction with the fund. Please note payments will fluctuate year over year and that your investment is subject to investment risk including risks associated with high yield, small cap and foreign securities.

Ratings (FBGRX)

Overall Morningstar Rating as of 08/31/2011

★★★★

The number of funds in Morningstar's Large Growth category was 1481. The Overall Morningstar Rating™ for a fund is derived from a weighted average of the performance figures associated with its 3-, 5-, and 10-year (if applicable) Morningstar

Composition (FBGRX)

Strategy

Normally investing at least 80% of assets in blue chip companies (companies whose stock is included in the S&P 500 or the Dow Jones Industrial Average, and companies with market capitalizations of at least $1 billion if not included in either index). Investing in companies that FMR believes have above-average growth potential (stocks of these companies are often called "growth" stocks). Normally investing primarily in common stocks of well-known and established companies.

More about Composition

1. No Transaction Fee Fidelity funds are available without paying a trading fee to Fidelity or a sales load to the fund. However, the fund may charge a short-term trading or redemption fee to protect the interests of long-term shareholders of the fund. Shares are subject to the fund's management and operating expenses. See Expenses & Fees for more information.
2. Minimum investment for SEP-IRAs or Keoghs is $500.
3. Total returns include changes in share price and reinvestment of dividends and capital gains, if any. Quarter-end returns include the effect of any applicable recurring and non-recurring fees (including short-term trading fees or redemption fees).
4. The chart illustrates the performance of a hypothetical $10,000 investment made in the fund ten years ago or on commencement of operations (whichever is later). Figures include reinvestment of capital gains and dividends, but do not reflect the effect of any applicable sales charges or redemption fees, which would lower these figures. This chart is not intended to imply any future performance of the fund.
5. Any holdings, asset allocation, diversification breakdowns or other composition data shown are as of the date indicated and are subject to change at any time. They may not be representative of the fund's current or future investments. The Top Ten holdings do not include money market instruments or futures contracts, if any. Depository receipts are normally combined with the underlying security. Some breakdowns may be intentionally limited to a particular asset class or other subset of the fund's entire portfolio, particularly in multi-asset class funds where the attributes of the equity and fixed income portions are different.

   Under the Asset Allocation section, "Tax-Advantaged Domiciles" represent countries whose tax policies may be favorable for company incorporation.

Before investing, consider the fund's investment objectives, risks, charges and expenses. Contact Fidelity for a prospectus or, if available, a summary prospectus containing this information. Read it carefully.
